AI 4 Good Workshops: Supercharging Community Impact

Today, the nexus of mobile technologies, speech recognition and Generative AI represent a game-changing opportunity for non-technical individuals to leverage technology effectively. Bed-Stuy native / resident, MIT Alumnus, Community Internet Pioneer, and Technology Evangelist Ken Granderson will walk you through how to use AI to empower you and your team to achieve 10x more with half the effort.

Overview

Participants will get hands-on experience with AI tools, specifically ChatGPT, to streamline their workflows and enhance their productivity in a variety of ways, without requiring deep technical knowledge.

Audiences:

Public sector teams (elected officials' support teams) • Community organizations • Small businesses

Experience Using AI For:

1. Writing and Communication:

Craft proposals • Draft emails and letters • Develop presentations and statements of work

2. Document Analysis:

Review documents for completion and gaps • Summarize complex information and extract key points

3. Data Analysis:

Analyze spreadsheets and charts • Make projections and data-driven decisions

Format:

Interactive • Hands-On • Outcome-Oriented:
Bring your laptop, problems, and documents - Leave with AI-generated materials tailored to your needs.

Benefits:

Enhance your productivity • Improve your communication and documentation • Gain a competitive edge

About Ken:

With over 30 years of experience in technology and a deep commitment to community that put Boston's Roxbury community online in 1996 and the Government of Saint Lucia in 2014, Ken has been at the leading edge of transforming lives and businesses in communities of color via technology longer than most people have been using the Internet. Ken returned to Bed-Stuy in 2018 to continue his community empowering work back home.
