Fast Facts

- ✓ Millennials / Gen-Zs have very little connection to the Past as positive images of cultural achievements are lost or not available in a way they can consume and relate to.

- ✓ Black Newspapers closing at unprecedented Rate.
- ✓ Ebony and Jet likely to shut down – yet another example of Iconic brands that once preserved our culture are being subsumed or disappearing.
- ✓ Millennials more likely to get their information online and with 43% of the 75 million Millennials in the U.S. identify as African American, Hispanic or Asian if a brand doesn't have a multicultural strategy it doesn't have a growth strategy.
- ✓ African Americans are 44% more likely than non-Hispanic white peers to interact with brands on social media or user social networks to support companies and brands.

“Our research shows that Black consumer choices have a ‘cool factor’ that has created a halo effect, influencing not just consumers of color but the mainstream as well...” - Cheryl Grace, Senior Vice President of U.S. Strategic Community Alliances and Consumer Engagement, Nielsen
